### Why consolidate?

If you've worked in a few jobs, chances are you have super in a number of funds. The average Australian has three super funds\*, which means three lots of paperwork, three sets of fees, and three funds to remember. It can make super confusing – but it doesn't have to be.

Transferring your super into NESS Super means you may:

- ✓ Save on costs
- ✓ Reduce your paperwork
- ✓ Make it easy to keep track of your super
- ✓ Simplify your insurance
- ✓ Potentially have more when you retire.

If you have multiple super accounts you're paying multiple sets of fees. These fees and charges can add up to thousands of dollars over your working life, meaning less for you when you retire.

Receiving statements and paperwork from multiple funds can be hard to keep track of and confusing. Simplify your super by transferring it into NESS Super and you'll receive two benefit statements per year so you can easily see how your super is tracking.

## Tips before you transfer

Before you transfer your super into NESS Super, it's a good idea to:

- **Track down all of your super.** The ATO's SuperSeeker tool makes it easy to search for your super. Visit [www.ato.gov.au/super](http://www.ato.gov.au/super) to find out more.
- **Check if you will be charged exit fees.** Some funds charge exit fees when you leave them – check with your other fund(s).
- **Check if you will be losing any benefits, such as insurance.** You may have insurance with the fund you're leaving and you will lose this cover if you leave. The good news is we may be able to transfer cover from other fund(s) without requiring medical evidence. **Please call us on 1800 022 067 to talk about this before taking any action.**
- **Consider getting financial advice.** Now might be a good time to review your retirement planning and insurance arrangements. NESS Super works closely with our financial advice partner who can provide you with professional, independent financial planning and advice. ## To transfer your insurance

Insurance is an important benefit attached to your super. Super and insurance complement each other. Super is designed to provide you with a comfortable standard of living after you stop working. Insurance can protect your standard of living before you reach retirement age if you're unlucky enough to be seriously injured or affected by illness.

### What to do

Go to Super/Forms & publications at [www.nesssuper.com.au](http://www.nesssuper.com.au) and open the *Transfer of Insurance to NESS Super* form under the Insurance tab.

Make sure you complete all sections of the form and send it to NESS Super.

### ! Important!

If you're transferring your super into NESS Super and would also like to transfer your insurance, it's important to retain your insurance cover in your previous fund(s) until our insurer has assessed and accepted your application to transfer your insurance to NESS Super.

You shouldn't cancel your insurance in your previous fund(s) or transfer your entire account balance until this has happened.

## ATO SuperSeeker – another part of the new online rollover super highway

You may have super with other funds that you have forgotten about. Perhaps you've changed your name, address or job and lost track of some of your super.

Your money may in fact be some of the billions of dollars held by the ATO as unclaimed super. But did you know that the ATO has a free online tool on its website, [www.ato.gov.au/super](http://www.ato.gov.au/super), that allows individuals to search for any lost or unclaimed super?

Called **SuperSeeker**, you can use it to:

- check all your super accounts
- find any lost super held by other funds
- find any ATO-held super
- consolidate other super accounts into the super account you want (including NESS Super!)

To use SuperSeeker, all you have to do is register for the ATO's online services.

### It's easy to use and there's no paperwork!
